Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Notice of Amendment

In response to the amendment filed on November 30 2006, amended claim 1 is acknowledged. The current rejections of claims 1-17 are *withdrawn*. The following new grounds of rejection are set forth:

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims ¹⁻¹⁷~~1-4 and 17~~ are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 6,117,128 to Gregory.

In regards to claims 1 and 17, Gregory discloses an endoscope comprising: an insertion unit having a soft portion; a small-diameter portion 14 which is included in the soft portion and whose outer diameter is substantially the same over the whole length thereof; a large-diameter portion 12 which is included in the soft portion and whose outer diameter is larger than the outer diameter of the small-diameter portion being located rearward an endoscope portion separated 70 cm from the distal endoscope end; and a tapered portion 13 linking the small-diameter portion and the large-diameter portion, the tapered portion being located forward the endoscope portion separated 70 cm from the distal endoscope end (see Col. 6, Lines 34-49, Col. 9, Lines 39-67 and Fig.

2/24/07

In regards to claim 2, Gregory discloses an endoscope, wherein the small-diameter portion is long enough to be bent 180 degrees while forming an arc having a minimum radius (see Col. 9, Lines 39-67).

In regards to claims 3-4, Gregory discloses an endoscope, wherein at least part of the tapered portion is located forward an endoscope portion separated 45 cm from the distal end (see Fig. 1)

Claims 5-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 6,117,128 to Gregory in view of U.S. Patent No. 5,084,022 to Claude.

In regards to claims 5-16, Gregory discloses an endoscope but is silent with respect to indices indicating distances from the distal end are inscribed on the soft portion. Claude teaches of an analogous medical apparatus provided with spaced indicia to indicate the distance the instrument is extended into a vascular vessel, catheter or other instrument (see Figs. 1-3). Furthermore the indices are capable of being formed on the instrument in any desired location considered to be helpful to the operator and the desired procedure. It would have been obvious to one skilled in the art at the time the invention was made to include indices on the endoscope of Gregory in order to facilitate the determination of the distance an instrument extends into a cavity as taught by Claude.

Response to Arguments

Applicant's arguments with respect to claims 1-17 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
